

Resource Environmental Management, Inc. (RESOURCE) is an environmental management company that values safety, compliance, and customer care. The firm is organized in 4 practices areas: (1) Environmental Consulting (2) Environmental Geology (3) Waste Management (4) Health & Safety. These services blend traditional and market-leading consulting services, allowing RESOURCE to address emerging environmental opportunities and challenges in the public and private sectors.

RESOURCE offers competitive compensation and benefits and is searching for experienced environmental professionals with a working knowledge of environmental permitting and regulations. We are a company that values your ideas and solutions.

Job Description:

RESOURCE is seeking a full-time **Senior Environmental Compliance Specialist** in **Montrose, Pennsylvania** or **Montoursville, Pennsylvania**. We are seeking a self-motivated person who values credible relationships with clients and the community. You will need to be flexible in your approach to challenges and have a strong ability to think laterally in delivering technical solutions. If you have a background in compliance, including air, water, waste, storm water, and Resource, Conservation, and Recovery Act (RCRA) permitting, Spill Prevention, Control, and Countermeasure (SPCC) plans/ Storm Water Pollution Prevention Plans (SWPPP) development, and chemical reporting for manufacturing and industrial sites, this is an excellent position for you.

General activities will include:

- Manage several projects simultaneously involving due diligence, Phase I/II environmental site assessments, compliance audits, permitting and facility compliance support
- Perform compliance and recordkeeping audits and provide regulatory determinations for state and federal regulations, including Clean Air Act (CAA) (NSPS, NESHAPs, etc.), BACT, CWA/NPDES, RCRA, and SPCC
- Conduct SARA TRI/Tier II reporting evaluations and prepare associated reporting forms (Form R, Tier II)
- Interact with regulatory agencies to successfully process permit application packages
- Prepare SPCC and state Preparedness plans
- Communicating with clients
- Reviewing technical deliverables for accuracy and clarity

Job Qualifications:

- B.S. degree in Environmental Engineering, Chemistry or a related field
- 3-5 years of compliance experience (including air, water, waste, storm water, and RCRA permitting, SARA reporting, SPCC, SWPPP, etc.) and environmental due diligence experience (including Phase I and Phase II environmental site assessments) for manufacturing and industrial sites
- Knowledge of regulatory environmental requirements in the northeast
- Excellent technical writing skills
- Data compilation, reduction, interpretation, evaluation/comparison to environmental regulatory standards
- Ability to effectively communicate with other technical professionals, clients, and regulatory officials
- Proficiency in MS Word, Excel, PowerPoint and Outlook
- OSHA 40-Hour HAZWOPER training is a plus

RESOURCE is an Equal Opportunity Employer and we value workplace diversity. We invite resumes from all interested and qualified parties.
