

RESOURCE is seeking a full-time **Environmental Technician** for our industrial services team. This is an excellent opportunity for an individual beginning or continuing their career in the environmental industry and wants more than field work – but a sense of belonging to a strong team that is well established. The position will focus on services and support including environmental monitoring and site investigations, sample collection (e.g., water, air, gas, soil), spill response activities, and residual and hazardous waste management. This position will require driving Resource box truck. Resource services a diversified group of clients that ranges from general industry, education, commercial business, and the natural gas industry. The diversification is important to the employee since it provides a broad understanding of the environmental services industry.

### **Qualifications**

- HS Diploma or BS/BA with a degree in geology, chemistry, environmental science, or related degree.
- Ability to lift 50 lbs. and perform field work.
- Willingness to work.
- Experience in environmental consulting a plus but not necessary.
- Computer skills including Word, Excel, Microsoft suite software and database software is a plus.
- Excellent writing and communication skills.
- Must be able to work independently, communicate effectively and balance multiple projects and tasks.
- CDL is preferred, but not required.

RESOURCE offers competitive compensation and benefits. We are a company that values your ideas and solutions.

RESOURCE is a Drug Free Workplace and an Equal Opportunity Employer, and we value workplace diversity. We invite resumes from all interested and qualified parties.
